1. Document Revision History

Version	Date	Author	Description of changes / remarks
1.0	08/07/2025	eHealth platform	Minor Release R20251.2 (29/07/2025)
1.1	30/07/2025	eHealth platform	Minor Release R20251.2 (29/07/2025)

2. Introduction

The objective of this document is to list changes, modifications, decommissions, bug corrections, which are part of this minor release **R20251.2 beginning the 22th July and ending the 29th July 2025** following canary release method.(*)

(*) more explication of this method via those links:

FR: <https://www.ehealth.fgov.be/ehealthplatform/fr/service-releases-management>

NL: <https://www.ehealth.fgov.be/ehealthplatform/nl/service-releases-management>

It covers:

- New or modified functionalities to eHealth web services and web applications
- New utilities, libraries, connectors to facilitate the call to the eHealth web services (as for the end to end encryption library)
- Technical specifications and requirements (as for the network specification, system settings, minimum and compatible browser versions, patch levels, ...)
- New global solutions based on the combination of several eHealth components
- New Authentic Sources, semantics and syntactic standards
- New Value Added Services that should be released by partners with the official partner's production date (POC) and the eHealth production date
- New procedures to be applied

If applicable, this document specifies:

- The major deliverables (components, cookbooks, forms, user guides)
- The backward compatibility (which version remains valid)
- Point of contact

For more details: see section 3 of this document and at

NL: <https://www.ehealth.fgov.be/ehealthplatform/nl/service-releases-management>

3. Main new functionalities and minor changes

3.1 Recip-e Pipe

Remove insurability callout from recip-e executor

3.2 Mult-eMediAtt

- The mutual insurance sector has been added as a potential recipient for receiving Mult-eMediAtt benefits, even in cases where work incapacity is less than 100%.
 - Target group: general practitioners.
- Adaptation of the DAAS business rules in the Mult-eMediAtt project to reflect a legal change related to HR RAIL.

3.3 Evolutionary maintenance and corrections

 - Evolutive maintenance
 - No impact foreseen for external partners/package providers
- KGSS
 - Evolutive maintenance
 - No impact foreseen for external partners/package providers
- Addressbook REST
 - Evolutive maintenance (new search criteria)
 - No impact foreseen for external partners/package providers

- IAM Exchange
 - Evolutive maintenance
 - See external related communication
- Pseudo
 - Evolutive maintenance
 - No impact foreseen for external partners/package providers
- Cobrha +
 - Evolutive maintenance
 - No impact foreseen for external partners/package providers
- Cobrha
 - Evolutive maintenance
 - No impact foreseen for external partners/package providers
- Cobrha + DB
 - Evolutive maintenance
 - No impact foreseen for external partners/package providers
- Cobrha DB
 - Evolutive maintenance
 - No impact foreseen for external partners/package providers
- Directory
 - Evolutive maintenance
 - No impact foreseen for external partners/package providers
- eH2eBox
 - Evolutive maintenance
 - No impact foreseen for external partners/package providers

3.4 Currently Supported Browsers (minimal version)

You can find the list of supported browsers at the following links:

Comment accéder aux applications ? | eSanté

+ Mon navigateur est-il validé ?

Hoe toegang krijgen tot applicaties? | eGezondheid

+ Is mijn browser goedgekeurd ?

4. Related communication

You can find all the communications that were sent in preparation for this minor release. **Please review them again.**

- IAM Connect

New guidelines and technological evolution of the IAM Connect service :

<https://www.ehealth.fgov.be/ehealthplatform/file/cc73d96153bbd5448a56f19d925d05b1379c7f21/d99efc95cbc48d9eec5165695cea71a0a1688591/new-guidelines-iam.pdf>

5. Known Issues

At this stage, there are no known issues.

6. Support

Issues in Production
